Portable SurfaceSound™ Speaker Fills Your Helmet with Surround Sound Music

SurfaceSound

Tunebug's patented SurfaceSound Technology lets sound waves pass through the surfaces it rests on turning many 3-dimensional surfaces into a surround sound speaker.

Music 4 UR Melon

Mobile music typically means listening through headphones, dangerously isolating yourself from others and your environment. The Tunebug Shake is an ultra-portable sound generator that can be connected to iPods, MP3 players or mobile phones or used wirelessly using **Bluetooth®** technology. When mounted on a bike, skate or snowboard helmet, the Shake creates a surround sound experience.

- Ultra-portable and lightweight
- Mounts to most types of helmets
- Rubber molded grip and water resistant
- Touch-sensitive on/off and volume up/down control

Specifications

Size And Weight

Dimensions: 2.3 x 0.85in (57.15 x 21.5mm)
Weight: 2.4oz (68g)

Power And Battery

Battery type: LiPoly (450mAh)
Playtime: 5 hours

Connectivity

3.5mm Audio Cable
Bluetooth Wireless

Includes

3ft USB Charge Cable
3ft 3.5mm Audio Cable
TuneStrap and Gecko Mount Harnesses
