Vibe

Vibe™

Portable SurfaceSound™ Speaker

## SurfaceSound

Tunebug's patented SurfaceSound Technology lets sound waves pass through the surfaces it rests on turning many surfaces into a flat panel speaker.

## Better Sound on any Surface.

Mobile music typically means listening through headphones isolating yourself from others and your environment.

Or, worse yet, using the device's internal speakers that under-deliver. The Tunebug Vibe is an ultra-portable sound generator that can be connected to MP3 players, mobile devices, laptops or any other device with a 3.5mm audio jack.

- **Patented SurfaceSound Technology turns most surfaces into a flat panel speaker.**
- **Use Vibe as an external speaker for your mobile device via 3.5mm audio jack**
- **Ultra-portable**

## Specifications

### Size And Weight

Dimensions: 2.3 x 1 in (57.15 x 25.4 mm)

Weight: 5.3oz. (150g)

Material: Zinc and Plastic

Connectivity: 3.5mm audio jack

### Power And Battery

Battery type: LiPoly (450mAh)

Playtime (5 hours)

Charger included (USB to 3.5mm)

### Packaging

Dimensions: 4.8 x 4.8 x 2.4 in

(122x122x61 mm) box with hangtag

Master Carton: 12 per case

### UPC

851251002011
